INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Oriska Insurance Company
Oriskany, New York

We have audited the accompanying statement of admitted assets, liabilities and surplus – statutory basis of Oriska Insurance Company as of December 31, 2004 and 2003, and the related statements of income – statutory basis, changes in surplus – statutory basis, and cash flows – statutory basis for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

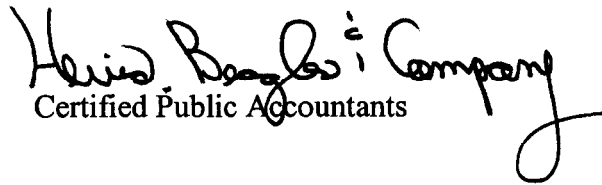

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed more fully in Note 1 to the financial statements, the Company prepares its financial statements using accounting practices prescribed or permitted by the Insurance Department of the State of New York, which practices differ from accounting practices generally accepted in the United States of America. The effects on the financial statements of the variances between statutory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Oriska Insurance Company at December 31, 2004 and 2003, or the results of its operations or its cash flows for the years then ended.

In our opinion, the financial statements referred to above present fairly in all material respects, the admitted assets, liabilities, and surplus of Oriska Insurance Company at December 31, 2004 and 2003, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note 1.

As discussed in Note 6 to the financial statements, the Company has a significant credit risk exposure on its high-deductible insurance policies. This credit risk relates to the ability of the Company's insureds to meet their claims reimbursement obligations on high-deductible policies. Management is of the opinion that this contingency will not have a material impact on the Company's financial condition. Accordingly, no provision for any liability that may result has been made in the financial statements.

**ORISKA INSURANCE COMPANY
NOTES TO FINANCIAL STATEMENTS –
STATUTORY BASIS**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Oriska Insurance Company (the Company) is a New York corporation licensed as a property and casualty insurer. The Company provides insurance coverage for surety, disability, group health and accident, and workers' compensation. The Company is a wholly owned subsidiary of Oriska Corporation. The Company is licensed in New York, Pennsylvania, Georgia, West Virginia, Tennessee, North Carolina and the District of Columbia.

During 2002, the Company began writing workers' compensation insurance for the professional employer organization (PEO) industry. As a result of the new PEO market, the Company significantly reduced its writings in its other lines of business in 2003. Workers' compensation represented 78% of net written premiums in 2004 and 2003.

Basis of Financial Statement Presentation

The Company, domiciled in New York State, prepares its statutory financial statements in accordance with accounting practices prescribed or permitted by the Insurance Department of the State of New York. Prescribed statutory accounting practices (SAP) include the *NAIC Accounting Practices and Procedures Manual* (NAIC SAP), and other publications of the National Association of Insurance Commissioners (NAIC), as well as the state laws, regulations and administrative rules of the Insurance Department of the State of New York. Statutory accounting and reporting varies from generally accepted accounting principles (GAAP) as follows:

Investments – NAIC SAP requires investments in bonds be reported at amortized cost or market value in accordance with the requirements of NAIC. For GAAP, such fixed maturity investments are designated at purchase as held-to-maturity, trading or available-for-sale. Held-to-maturity fixed investments are reported at amortized cost, and the remaining fixed maturity investments are reported at fair value with unrealized holding gains and losses reported in operations for those designated as trading and as a separate component of shareholders' equity for those designated as available-for-sale.

Policy Acquisition Costs – NAIC SAP requires the costs of acquiring and renewing business to be expensed when incurred. Under GAAP, such costs, to the extent recoverable, would be deferred and amortized over the effective period of the related insurance policies.

Non-admitted Assets – NAIC SAP excludes certain assets not available for the payment of claims such as past due unpaid premiums, prepaid expenses

and furniture and equipment. GAAP records all assets owned by the Company at cost or recoverable amounts.

Reinsurance – NAIC SAP requires that a liability for reinsurance balances be provided for unsecured unearned premiums and unpaid losses ceded to reinsurers unauthorized to assume such business and for certain overdue reinsurance balances. Changes to those amounts are credited or charged directly to unassigned surplus. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings.

NAIC SAP reports reserves for losses, loss adjustment expenses and unearned premiums ceded to reinsurers as reductions of the related reserves rather than as assets as required by GAAP.

Deferred Income Taxes – NAIC SAP recognizes all deferred tax liabilities and only deferred tax assets that will be realized within one year. GAAP recognizes deferred income taxes on temporary differences between GAAP and tax accounting with a valuation allowance against deferred tax assets that may not be recoverable.

Guaranty Fund and Other Assessments – NAIC SAP requires guaranty fund and other assessments be accrued when the Company receives notice that an assessment is payable. Under GAAP, guaranty fund assessments are accrued at the time the events occur on which assessments are expected to be based.

The *NAIC Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of New York effective January 1, 2001. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

Cash and Short-term Investments

For purposes of the statement of cash flows, NAIC SAP considers all debt instruments with a maturity of one year or less at date of purchase to be short-term investments.

Investments

Bonds, preferred stocks, common stocks and short-term investments are stated at values prescribed by the NAIC, as follows:

Bonds not backed by other loans are principally stated at amortized cost.

Loan-backed securities are valued at the lower of market value or amortized cost using the interest method including anticipated prepayments.

Common stocks are reported at market value as determined by the Securities Valuation Office of the NAIC and the related net unrealized capital gains (losses) are reported in unassigned surplus without any adjustment for federal income taxes.

Short-term investments include investments with remaining maturities of one year or less at the time of acquisition and are principally stated at amortized cost.

Real estate held for sale is stated at the lower of cost or fair value and net of encumbrances and estimated selling costs.

Realized capital gains and losses are determined using the specific identification method. Changes in admitted asset carrying amounts of bonds, mortgage loans, common and non-redeemable preferred stocks are credited or charged directly to unassigned surplus.

Premiums

Premiums are recognized ratably over the life of the policies. Workers' compensation premiums are estimated based on anticipated payrolls of the PEO's for the policy period and are subject to audit at the end of the policy term. Advance premiums represent amounts received on policies not yet in force and are recognized as a liability in the Company's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Losses and Loss Adjustment Expenses

The liability for unpaid losses and loss adjustment expenses includes amounts determined from individual case estimates and loss reports, and an amount based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

Reinsurance

Prospective reinsurance premiums, losses, and loss adjustment expenses are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance treaties.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of admitted assets and liabilities, and revenues and expenses. The significant estimates used in preparing these financial statements include those assumed in the determination of the liability for losses and loss adjustment expenses and the collectibility of claims reimbursements on high-deductible policies. It is reasonably possible that the significant estimates used will change within the next year.

Real Estate Held for Sale

During 2003, in partial settlement of unpaid insurance premiums from an insured, the Company accepted title to improved real estate in a troubled debt restructuring under SSAP No. 36. The Company is actively attempting to sell the property. Accordingly, it has been classified as “Held for Sale”. This investment is carried at fair market value at the date of acquisition (which amount is less than the total indebtedness owing from the insured) less liens on the property of \$637,955 and estimated selling costs. A realized loss of \$139,000 was recorded in 2003 for unpaid premiums written off as uncollectible in excess of the net realizable value of the real estate received.

Investment Income

Investment Income is comprised of the following:

NOTE 2 – INVESTMENTS (CONTINUED)

At December 31, 2004, investments carried at a book value of \$2,383,410 were on deposit with regulatory authorities.

NOTE 3 - REINSURANCE

The Company limits the maximum net loss which can arise from large risks or risks in concentrated areas of exposure by reinsuring (ceding) certain levels of risks to other insurers or reinsurers by entering into excess of loss and quota share reinsurance contracts. Excess of loss reinsurance contracts cede a portion of retained losses over minimum amounts ranging from \$100,000 to \$1,000,000, depending upon the line of business. Ceded reinsurance is treated as the risk and liability of the assuming companies.

During 2003 the Company assumed \$2,706,427 of excess of loss reinsurance premiums from an affiliate and incurred a commission expense of \$394,597 on the transaction.

The effects of reinsurance ceded and assumed on premiums written and earned are as follows:

| | 2004 | | 2003 | |
|------------------|--------------------|--------------------|---------------------|---------------------|
| | Written | Earned | Written | Earned |
| Direct Premiums | \$2,560,646 | \$3,102,562 | \$ 5,490,019 | \$ 8,702,380 |
| Assumed Premiums | - | - | 2,706,427 | 2,706,427 |
| Ceded Premiums | 2,612,296 | 2,101,500 | (969,375) | (1,576,949) |
| Net Premiums | <u>\$5,172,942</u> | <u>\$5,204,062</u> | <u>\$ 7,227,071</u> | <u>\$ 9,831,858</u> |

The reinsurance contracts do not relieve the Company from its obligations to policyholders. In the event that any or all of the reinsuring companies might be unable to meet their obligations under existing reinsurance agreements, the Company would be liable for defaulted amounts.

The estimated amount recoverable from reinsurers deducted from the reserve for losses and loss adjustment expenses was \$2,894,794 and \$3,547,953 at December 31, 2004, and 2003, respectively.

There were no return commissions recoverable at December 31, 2004 and 2003.

**ORISKA INSURANCE COMPANY
NOTES TO FINANCIAL STATEMENTS –
STATUTORY BASIS**

NOTE 3 - REINSURANCE (CONTINUED)

At December 31, 2004, the Company had unsecured recoverables from reinsurers for losses and loss adjustment expenses paid and unpaid, including IBNR and unearned premiums that exceed 3% of surplus as follows:

| | |
|------------------------------|------------|
| Everest RE | \$ 225,000 |
| Folksamerica Reinsurance Co. | 876,000 |
| GE RE | 604,000 |
| Houston Casualty Co. | 678,000 |
| Kemper RE | 308,000 |
| Odyssey American RE | 302,000 |
| Reliance National | 332,000 |
| Lumbermans Mutual | 159,000 |

During 2004 the Company commuted its reinsurance with Max RE for the period 2002 to 2003. There was no ceded losses on this coverage and no unearned premium.

NOTE 4 – INCOME TAXES

Deferred income taxes are provided for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements. Such differences relate primarily to the discounting of loss reserves for tax purposes. NAIC allows deferred income tax assets to be recognized to the extent they can be used within one year from the balance sheet date.

The tax effect of temporary differences that give rise to the deferred tax asset at December 31, 2004 and 2003 consist of:

| | 2004 | 2003 |
|----------------------------------|--------------|--------------|
| Unrealized Securities Gains | \$ (275,000) | \$ (172,753) |
| Discounting of Unearned Premiums | 89,000 | 90,686 |

NOTE 6 – HIGH DEDUCTIBLE POLICIES

In 2003 the Company began to write high-deductible workers' compensation insurance for PEO's. The deductibles on these policies range from \$5,000 to \$500,000. The Company is exposed to significant credit risk arising from these high-deductible policies.

The reserves for these deductibles were reviewed by Robert J. Meyer, FCAS of Milliman USA. The reserve credit taken by the Company for high deductibles was approximately \$14.3 million as of December 31, 2004. Funds billed to PEO's and admitted for paid claims was \$7,877.

The Company reviews the financial viability of its insureds, whether reimbursements for deductibles on workers' compensation policies are collectible, and the suitability of the deductible plans to its insureds.

At December 31, 2004, the Company held security interest in bank accounts, real estate, and other assets of insureds as collateral against this risk exposure. However, the Company is unable to reasonably determine the value of some of those security interests, because the collateral agreements do not provide that minimum cash balances be maintained, nor do they provide for effective monitoring of the cash balances. Management is in the process of negotiating enhanced collateral facilities with its insureds to minimize this credit risk. However, there is no assurance that these negotiations will be successful.

The Company is also the plaintiff in legal actions against several PEO's for non-payment of premiums and claims reimbursement. The ultimate outcome of this litigation cannot reasonably be determined at this time.

Management is of the opinion that these contingencies will not have a material impact on the Company's financial condition and a \$618,362 provision for non-recovery of deductibles has been made in the financial statements.

NOTE 7 – CAPITAL AND SURPLUS

Property and casualty insurance companies are subject to certain Risk-Based Capital (RBC) requirements as specified by the NAIC. Under those requirements, the amount of capital and surplus maintained by the insurance company is to be determined based on the various risk factors related to it. At December 31, 2004 and 2003, the Company met the RBC requirements.

The maximum amount of dividends that may be paid by property and casualty insurance companies without prior approval by the State of New York Insurance Commissioner is subject to restrictions relating to statutory surplus and net income. The Company cannot pay dividends without prior approval of the State of New York Insurance Commissioner.

NOTE 8 – RELATED PARTY TRANSACTIONS

The Company is owned 100% by Oriska Corporation (a New York corporation). Oriska Corporation is an 82% owned subsidiary of IPA Acquisitions, Inc. (a California corporation).

Monument Agency, Inc. (Monument) provides agency services and facilities to the Company and its affiliates. Monument is a related party through contractual obligations. In 2004 and 2003 the Company incurred \$198,467 and \$377,211, respectively, in commissions to Monument.

In 2003, administrative support and facilities expense were charged to the Company by Monument on a cost allocation basis. In 2004, a similar administrative support and facilities expense arrangement was in place through United Systems Management, Inc. (USA). USA is also a related party through common management.

The President of the Company is the principal shareholder of IPA Acquisitions, Inc. In addition to his management responsibilities he also provides legal counsel and engineering loss control and risk inspection services to the Company. He does not receive a regular salary from the Company, but was paid \$97,902 and \$48,383 in legal fees in 2004 and 2003, respectively.

NOTE 8 – RELATED PARTY TRANSACTIONS (CONTINUED)

At December 31, 2004 and 2003, the Company had the following receivables (payables) due from (to) its affiliates and related parties:

| | 2004 | 2003 |
|--------------------------------------|----------------|------------|
| Insurance Company of the Americas | \$ (809,500) | \$ 176,750 |
| Oriska Corporation | (25,202) | 680,417 |
| IPA Acquisitions, Inc. | 21,132 | (965,268) |
| Monument Agency, Inc. | (429,287) | 806,124 |
| Reinsurance Company of America, Inc. | 215,279 | - |
| United Systems Management, Inc. | 5,658 | - |
| | \$ (1,021,920) | \$ 698,023 |

During 2003 the Company assumed \$2,706,427 of reinsurance from an affiliate, Insurance Company of the Americas. The Company assumed this coverage by replacing an existing unrelated reinsurer, Dallas Fire.

NOTE 9 – COMMITMENTS AND CONTINGENCIES

The Company is named as a defendant in various legal actions arising principally from claims made under insurance policies and disputes with insureds. Those actions have been considered by the Company in estimating the loss and loss adjustment expense liability. Management believes that the resolution of those actions will not have a material effect on the Company's financial position or results of operations.

See Note 6 for contingencies related to high-deductible-policies.

IPA Acquisitions, Inc., the Company's ultimate Parent, has issued surplus notes to several PEO's that the Company insures. At December 31, 2004 the outstanding balance on these notes and other funds held by IPA for the Company's benefit was approximately \$724,000. The principal and interest, while due on demand, can only be paid out of dividends paid by the insurance subsidiaries of IPA, including the Company. The repayment of this debt and all dividends are subject to approval by the Florida or New York Departments of Insurance. The Company is not directly obligated or a guarantor of these surplus notes or other obligations of IPA or affiliated companies.

NOTE 10 – CONCENTRATION OF CREDIT RISK

The Company's concentration of credit risk consist primarily of cash, receivables from insureds, and uncollateralized reserve credits on high-deductible policies.

The Company maintains cash balances in excess of insurance provided by the Federal Deposit Insurance Corporation (FDIC). Balances recorded in the financial statements in excess of FDIC limits were \$3,390,866 and \$231,005 at December 31, 2004 and 2003, respectively.

The Company writes a significant portion of its business through Monument Agency, Inc. (See Note 8). In 2004 and 2003, premiums written through Monument represent 98% and 83% of total direct written premiums, respectively. One PEO client represents 85% of direct written premium in 2004 and 81% of premiums and agents' balances receivable at December 31, 2004.

See Note 6 for discussion on high-deductible policies.
